## WALL PAPERS

THE NEW RUNNINGS FROM THE MILLS ARE NOW IN

This season's Papers are far in advance of any previous showing in artistic effects. Did it ever occur to you why some rooms look more pleasant to you than others, and that this is due to the coloring and design of the Wall Paper?

The wall covering is the background of the room decoration; if it be cold in color, the room will appear cold; if the design fails in ornamental harmony, it will offend your eye and you will feel discontented with the surroundings. Perhaps we can help you in the selection of your color schemes—at least we ask you for your inspection of our various lines.

## Easter Greetings

To your friends or relatives, some little remembrance—or token to convey the good wishes of the day, is as essential as Christmas greetings. To convey to the friends your most sincere greetings, the card or booklet must be in keeping with the thoughts of the sender. A card consisting of good quality, neatly made up with suggestive sentiments of the newest ideas, further impresses the receiver of your sincere wishes.

In selecting our stock of Easter Post Cards, Booklets and Plack Hangers, we used care in picking the items that would appeal to the particular people and those who desired exclusive items. This policy in the past has met with the approval of many people, as well as many new customers who appreciate our efforts in displaying lines that are not duplicated in cheaper makes. Our quality of cards, retailing at one penny each, will surprise you. Our lines are limited, so we urge early shopping.

SOMETHING A LITTLE DIFFERENT WILL ALWAYS BE FOUND HERE. WE RECEIVE THE NEWEST AND LATEST IDEAS PUBLISHED EVERY MONTH.

The condition of Mrs. George H. Bishop of Washington street, who has been quite seriously ill for several days, is reported to be improving steadily.

During the rapid rise of Stevens' branch yesterday, water found its way into the basement of the Central Vermont station and caused the railroad attaches considerable inconvenience for a time. The fire in the big furnace which heats the station plant had to be drawn and during the afternoon a small crew of men was engaged in opening drainways for the water to escape. A miniature lake some twelve inches in depth rushed over the floor of the basement almost as soon as the branch began to overflow.

Burnham's meadow.

Sugarmakers in the vicinity of Barre and nearby towns are beginning to feel discouraged over the prospects of harvesting even an average crop of the saccharine product. Farmers, who have already decided not to scatter their buckets say that the quality of the crop is apt to be poor owing to the absence of frost in the ground and snow on the surface. Much of the sap, they add, is in the tops of the trees, a sign which some accept as auguring an unprofitable season. Down in southern Vermont, in Windham county, the farmers have secured their first run of sap and are waiting for the next one. Sugar of good quality is bringing 30 cents per pound with a corresponding call for large prices in the syrup market.
